PROFESSIONAL SUMMARY

As a seasoned software developer with over a year of experience in the fintech industry, I am seeking a challenging role that will allow me to further enhance my skills and contribute to the company's growth. I am an inquisitive, driven, and self-motivated professional, adept at problem-solving, unit testing and debugging. I am confident that my technical skills and passion for learning will enable me to make a significant contribution to your organization.

WORK EXPERIENCE

Overall Experience: 1 year 3 months

Open Financial Technologies

Aug 2023 – Present

Software Development Engineer - 1

- Contributed to the [Open Business Payments app](#), achieving 5000+ downloads and deployed the application to Google Play Store and Apple App Store.
- Monolithic to Microservices Transformation - KYC Service: Led the transformation of a monolithic system into a microservices architecture, creating a separate database and migrating the Know Your Customer (KYC) module to a standalone microservice.
- Used Spring Boot with Redis caching to decrease database load, delivering a 40% improvement in response times and optimized state management with migration to Flutter Riverpod from providers in app.
- Developed features like connected banking, invoicing, and cash flow analytics, along with APIs for payouts, payment collection, and account reconciliation enabling users to view transaction analytics.
- Implemented microservices architecture using Spring Boot and Spring Cloud, enabling the system to handle a 20% or higher spikes in user traffic.
- Utilized Spring Data JPA with MySQL to optimize query performance, reducing execution time by 25%.
- Implemented clean architecture in the Flutter app, enhancing code organization and maintainability.

Open Financial Technologies

May 2023 - Aug 2023

Software Engineer

- Developed a POC e-commerce web application using Spring Boot and MySQL along with authentication using Spring Security and Jwt token based authentication and authorization.
- Leveraged Spring Data JPA for seamless interaction with databases and designed data access layer.
- Developed Flutter POC projects showcasing state management, network calls, and key functionalities.

SKILLS

- Programming Languages: Java, Dart, C
- Technologies and skills: Spring Boot, Spring Security, JDBC, Spring Data JPA, Hibernate, ORM, Spring Data Redis, Flutter, REST API, Crons, Data Structures and Algorithms, Problem solving and Debugging
- Databases: RDBMS — PostgreSQL, MySQL, H2
- Tools: Git, GitHub, Postman, Redis, Visual Studio Code, Jira, Sourcetree, Docker
- Platforms: macOS, Windows, Linux
- Soft Skills: Leadership, Strong Communication and Collaboration skills, Time Management, Creative Thinker

EDUCATION

- Odisha University of Technology and Research Aug 2019 - Apr 2023
Bachelor of Technology, Information Technology
CGPA: 9.46
- DAV Public School, Pokhariput Apr 2018 - Mar 2019
Higher Secondary (12th standard)
Result: 93.8%
