PROFESSIONAL SUMMARY

As a seasoned software developer with over a year of experience in the fintech industry, I am seeking a challenging role that will allow me to further enhance my skills and contribute to the company's growth. I am an inquisitive, driven, and self-motivated professional, adept at problem-solving and unit testing and debugging. I am confident that my technical skills and passion for learning will enable me to make a significant contribution to your organization.

WORK EXPERIENCE

Overall Experience: 1 year 3 months

Open Financial Technologies

Aug 2023 – Present

Software Engineer (Mobile Application Developer - Flutter)

- Enhanced code organization and scalability using MVVM and clean architecture.
- Simplified state management and project efficiency with Flutter Riverpod providers.
- Implemented Firebase for push notifications and crash reporting using Crashlytics.
- Optimized user preferences and app performance with shared preferences.
- Improved user experience with app localization for multiple languages using the l10n package.
- Contributed to the [Open Business Payments app](#), achieving 5000+ downloads and deployed the application to Google Play Store and Apple App Store.
- Integrated Flutter applications with backend systems and collaborated with cross-functional teams.

Open Financial Technologies (Internship)

May 2023 – July 2023

Software Engineer (Intern)

- Developed multiple Flutter projects focusing on UI/UX design and functionality.
- Utilized Flutter packages such as HTTP, Dio, Provider, and Flutter Hooks for streamlined development.
- Implemented best practices for app initialization and advanced Flutter packages like Freezed for immutable data structures.
- Integrated backend services with Flutter applications and used Git for version control.

SKILLS

- Programming Languages: Dart, Java, C
- Mobile Development: Flutter
- Backend Development: Spring Boot, Java Spring
- Database Management: MySQL, H2
- Web Development: HTML, CSS, JavaScript
- Tools: Git & GitHub, Postman, Visual Studio Code, Jira, Sourcetree
- Other Skills: REST API, Data Structures and Algorithms, Problem-solving and Debugging
- Soft Skills: Strong Communication and Collaboration Skills

PERSONAL PROJECTS AND CERTIFICATIONS

E-commerce app (Full Stack)

- Developed an e-commerce web application using Spring Boot and MySQL.
- Utilized Spring's Dependency Injection and annotated configuration for application components.
- Leveraged Spring Data JPA for seamless interaction with databases and designed data access layer.
- Implemented robust authentication and authorization mechanisms using Spring Security.

Task Management App

- Developed a task management app using Flutter.
- Implemented flutter_bloc for state management and Hive for local storage.

Reusable Component Library in Flutter (Melos Mono Repo)

- Developed a versatile UI component library in Flutter, organized within a Melos-managed mono repository.

Bus Routes Tracking App

- Designed and implemented a user-friendly bus routes tracking app with notification features alert users prior to bus departure times and JSON data handling.

OpenGenAI Hackathon

Engaged in AI exploration during the OpenGenAI hackathon

AWS Academy Cloud Foundations Certification
