PROFESSIONAL SUMMARY

A seasoned and result-oriented Software Engineer with over a year of experience in the fintech industry, skilled in building scalable, user-focused flutter applications. I am an inquisitive, driven, and self-motivated professional, adept at problem-solving, debugging and unit testing. I am seeking a challenging role that will allow me to further enhance my skills and learn new tech stacks. My technical proficiency and passion for continuous learning position me to make a significant impact within your team.

EXPERIENCE

Software Engineer

Open Financial Technologies

May 2023 – Present

Bengaluru, Karnataka

- **Open Business Payments app:**

- Launched Open Business Payments app on PlayStore and App Store processing 300+ transactions daily.
- Improved code maintenance and organization by implementing **MVVM** with clean architecture.
- Enhanced app stability by implementing **Firebase Crashlytics**, reducing unresolved crashes by 25%.
- Migrated state management from Providers to **Flutter Riverpod**, optimizing app performance.
- Created custom packages and plugins using method channels to reduce third-party dependencies.

- **NEO for Business - Axis Bank:**

- Developed a large-scale webview focused app in conjunction with Axis Bank achieving **50K+** downloads.
- Implemented SSL pinning and SIM Binding to enhance security and ensure robust user authentication.

- **Automated build generation** for all mobile applications using Jenkins CI/CD, saving development time

- Built multiple POC projects, including a bus routes app with real-time notifications and a Flutter UI components library, contributing to rapid prototyping and efficient implementation of new features.

ACHIEVEMENTS

DataTalk (OpenGenAI Hackathon) | LLM, Python, AWS, LangChain

March 2024

Developed DataTalk, an AI model that won 3rd prize in the OpenGenAI Hackathon, designed to answer user queries on Open Money's invoicing module using Amazon Bedrock. The model leverages similarity search to generate dynamic SQL queries and presents the necessary data in natural language using AWS Bedrock LLMs. The model was optimized using the LangChain framework, resulting in a 50% reduction in API costs, faster response times, and reducing data analytics efforts at Open by up to 80%.

TECHNICAL SKILLS

- **Languages:** Dart, Java, C
- **Technologies:** Flutter, Firebase, Flutter Riverpod, Providers, Flutter BLOC, Http, Retrofit, Android, iOS, SQLite, Melos, Hive, Dio, JSON, Data Structures & Algorithms, MVVM, REST API, Mircorservices, MVC
- **Databases:** MySQL, PostgreSQL
- **Platforms:** macOS, Windows
- **Soft Skills:** Leadership, Communication & Collaboration, Time Management, Creativity, Problem solving

EDUCATION

Odisha University of Technology and Research

Bachelor of Technology, Information Technology, CGPA: 9.46

Bhubaneswar, Odisha

Aug. 2019 – Apr 2023

DAV Public School

Higher Secondary, Science, Result: 93.8%

Bhubaneswar, Odisha
