PROFESSIONAL SUMMARY

As a seasoned software developer with over a year of experience in the fintech industry, I am seeking a challenging role that will allow me to further enhance my skills and contribute to the company's growth. I am an inquisitive, driven, and self-motivated professional, adept at problem-solving and unit testing and debugging. I am confident that my technical skills and passion for learning will enable me to make a significant contribution to your organization.

WORK EXPERIENCE

Overall Experience: 1 year 3 months

Open Financial Technologies

Aug 2023 – Present

Software Engineer

- Contributed to the [Open Business Payments app](#), achieving 5000+ downloads and deployed the application to Google Play Store and Apple App Store.
- Developed features like connected banking, invoicing, and cash flow analytics, along with APIs for payouts, payment collection, and account reconciliation enabling users to view transaction analytics.
- Used MVVM and clean architecture, resulting in a significant improvement in code maintenance.
- Leveraged Flutter Riverpod providers, reducing development time and enhancing project consistency.
- Implemented Firebase for push notifications and Crashlytics, leading to a better analysis and 25% decrease in unresolved crashes.
- Integrated network API calls with dio and retrofit, using interceptors for logging and secure request and response handling, introducing robust data security.
- Created our own plugins using method channels to reduce dependencies on packages and plugins in app.
- Implemented app localization with l10n package, increasing user retention in non-English regions by 20%.
- Used shared preferences to store settings, resulting in a 15% boost in app load times and user satisfaction.

Open Financial Technologies (Internship)

May 2023 – July 2023

Engineering Intern

- Developed a demo bus routes POC project focusing on UI/UX design and functionality where users receive notifications 5 minutes prior to bus departure time.
- Developed a versatile UI component library in Flutter, organized within a Melos-managed mono repository.
- Developed a task management app using Flutter with flutter BLOC and Hive for local storage.

SKILLS

- Programming Languages: Dart, Java, C
- Technologies: Flutter, Firebase, Flutter Riverpod, BLOC, dio, retrofit, shared preferences, JSON, Flutter Hooks, Freezed, Packages and plugins, Spring Boot, Java Spring
- Database Management: RDBMS- MySQL, H2
- Tools: Git, GitHub, Postman, Visual Studio Code, Jira, Sourcetree
- Other Skills: REST API, Data Structures and Algorithms, Problem-solving and Debugging
- Soft Skills: Strong Communication and Collaboration Skills, Leadership, Team player, Creativity

EDUCATION

- Odisha University of Technology and Research Aug 2019 - Apr 2023
Bachelor of Technology, Information Technology
CGPA: 9.46
- DAV Public School, Pokhariput Apr 2018 - Mar 2019
Higher Secondary (12th standard)
Result: 93.8%
