PROFESSIONAL SUMMARY

A seasoned and result-oriented software developer with over a year of experience in the fintech industry, skilled in problem-solving, debugging, and delivering high-quality software solutions. Known for being inquisitive, driven, and self-motivated, with a strong passion for learning and continuous improvement. Expertise in software development, combined with a proactive approach to tackling complex technical challenges, enables a consistent track record of contributing to organizational growth and innovation.

WORK EXPERIENCE

Overall Experience: 1 year 4 months

Open Financial Technologies Pvt Ltd

May 2023 – Present

Software Development Engineer - 1

- **Open Business Payments App**
 - Launched and deployed [Open Business Payments](#) app built with Flutter on Google Play and Apple App Store, achieving 5000+ downloads and 300+ daily transactions.
 - Improved code maintenance, organization and reduced development time by implementing **MVVM** with clean architecture, and **Flutter Riverpod** providers for state management, following best practices.
 - Enhanced app stability and security by implementing **Firebase** notifications and Crashlytics, reducing unresolved crashes by 25%, and integrating Dio and Retrofit with interceptors for secure API calls.
 - Created custom packages and plugins using method channels to reduce third-party dependencies and introduced app localization with Flutter's l10n package to boost user engagement.
- **NEO for Business - Axis Bank**
 - Developed a webview focused app in conjunction with Axis Bank amassing **50K+** downloads on Play Store, integrating banking APIs to optimize performance and deliver a seamless user experience.
 - Implemented SSL pinning and SIM Binding to enhance security and ensure robust user authentication.
- **Automated build generation** for all mobile applications using Jenkins CI/CD, allowing test builds to be generated directly from any development git branch reducing QA team's dependency on the mobile team.
- Built multiple POC apps including a bus routes app with real-time notifications, a reusable Flutter UI component library within a Melos-managed mono repository and a tasks app using Flutter BLOC and Hive.

ACHIEVEMENTS

AWS Open GenAI Hackathon 2024 (3rd Place)

Designed and implemented DataTalk, an AI model that answers user queries based on Open Money's invoicing module by generating dynamic SQL queries and presenting the data in Natural Language through integration with AWS LLM APIs, reducing manual data query time by approximately 50%.

SKILLS

- **Languages:** Dart, Java, C
- **Technologies:** Flutter, Firebase, REST API, Flutter Riverpod, Providers, Flutter BLOC, Melos, http, Dio, Retrofit, JSON, Hive, Shared preferences, SQLite, Packages and plugins
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, Postman, Visual Studio Code, Jira, Sourcetree, Apidog, Slack
- **Platforms:** macOS, Windows
- **Soft Skills:** Leadership, Communication and Collaboration, Time Management, Creative thinking, Problem solving

EDUCATION

Odisha University of Technology and Research
Bachelor of Technology - Information Technology; CGPA: 9.46

Bhubaneswar, Odisha
Aug 2019 - Apr 2023
